Bushfire Danger Season Ended 31 March 2022. Now that we are out of the bushfire danger period, if you are thinking of burning cleared vegetation that you have Please see page 5 for some rules that you must follow to make it safer for you and your neighbours:

Annual Subscriptions - please send your details and **\$30** (cheques payable to 'Windellama News') to cover the annual cost of postage.

All cheques please post to:

The Secretary, PO Box 705, Goulburn. 2580

* Unpaid subscriptions will be cancelled after one month

If you have any short articles, anecdotes, or something else interesting about yourself, your family, or the community; please write it down and drop it in our letterbox at the Hall. We will edit it and publish it in the Windellama News.

A LOCKED POSTAL BOX IS AT THE FRONT OF THE HALL, 3444 OALLEN FORD RD, IN THE STONE WALL FOR THE COLLECTION OF ITEMS FOR PUBLICATION

Items left in the box after the deadline will not be collected or included in the News

Articles, adverts, etc may also be sent by email to:

newswindellama@gmail.com

Adverts sent by email will not be inserted unless payment is received by the deadline.

Our Policy on Receipts

The Windellama News makes out a receipt for all advertising payments made to the paper. We don't post out receipts to save cost and we assume that the appearance of the advertisement in the paper could normally be taken as proof of payment. If you require a posted receipt please include a stamped self-addressed envelope with your payment.

It would be greatly appreciated if anyone sending money to the Windellama News would include their name and address and a note saying what it was for and put it in a sealed envelope. This would avoid a lot of confusion and uncertainty .

Community Notice Board

Would you like to help the Windellama community?

We are looking for someone to assist with the market stallholder coordination for about 6 months from March onwards. It requires about 2 hours of work to advertise and coordinate with stallholders each month plus 5 hours once per month on market Sunday mornings to help in the kitchen and organising stalls. You need some basic knowledge of Facebook and Excel spreadsheets. We'd also love to hear your ideas for the markets and helping the community.

If you're interested in helping out please contact Gayle on 0419445863 or come along to the next Windellama Progress Meeting on Friday April 19 at 4pm.

NSW RURAL FIRE SERVICE

Windellama Rural Fire Brigade

Bushfire Danger Season Ended 31 March 2024. Now that we are out of the bushfire danger period, if you are thinking of burning cleared vegetation that you have in a pile there are some rules that you must follow to make it safer for you and your neighbours:

- You **must notify** the RFS using the online form www.rfs.nsw.gov.au/fire-information/BFDP/burn-notifications and all adjoining neighbours at least 24 hours before lighting. You can also call the RFS Fire Control Centre (02) 6226 3100
- You must be present to **supervise the burn at all times after lighting and ensure it is definitely out before leaving it unattended.**
- Piles should not be greater than 2m length or width, 1.5 m in height and cleared to 4.5m
- Before lighting consider the weather. Only light the pile if conditions are calm.

All planned burns are registered on a database which means the RFS and Police won't be unnecessarily called out to a smoke sighting which is your pile burn.

Brigade activity

- We have doubled our number of regular training sessions and our first night session during March trained in water rescue, off road driving and pumping at Oallen Ford
- We welcomed 5 new members who have already started training and will be ready to attend incidents well before next fire season.
- Four units attended a call to a structure fire on Windellama Rd
- Two units attended a bushfire call to Hazelton Rd Bungonia assisting Bungonia RFS
- One unit cleared a fallen tree from Windellama Rd.

Thank you Windellama Community! We have now installed lightbars on two of our trucks. This will improve the safety of our crews, other road users and wildlife both on and off road.

Flood rescue capability for Windellama RFS. In implementing one of the recommendations of the NSW Government's Flood Inquiry following the flood disaster response in 2021/22, all five Windellama RFS vehicles have been equipped with flood rescue kits. Our members have had online training and several practical training sessions in flood rescue.

February 2024 Rainfall at our place

For February we received an extra 12mm of rain for a total of 126mm for this month.

March 2024 Rainfall at our place

The 17mm of rain received overnight on the 14th of this month was more than welcome, as the ground had reached the stage where you needed a Crow Bar to help dig a hole!

All up for this month so far, we have received 31mm at our place.

In our garden

The two pumpkins I planted Baby Boo and Kabocha have avoided fungal problems so far. Baby Boo pumpkins have a white skin and white flesh similar to a potato in texture. They crop heavy but are fiddly to prepare, although, I don't mind the taste. The other pumpkin I grew Kabocha is bigger but not as productive as Baby Boo. Both pumpkins require an axe to cut through the skin so both should be good keepers.

Probably better when cooking with both pumpkins is to do so with skins on, especially when baking. The tomatoes I planted in November and planted to close together, are cropping really well but Budworm has got into a few and ruined them so the 4 egg layers have been consuming them and getting extra protein and vegetable all at once.

The bacterial spray Dipel will reduce Budworm numbers but as yet, I haven't bothered. Maybe it's time to introduce a natural enemy.

The other problem I encountered from growing so close is some fungal problems on the leaves. At this stage all I am doing is removing the infected leaves. I could spray but with the rain and heavy dews I would be spraying every day, so only will as a last resort and with the rain over the last few days, it would be a waste of time. Instead I have given them a feed of Phosphorus grannuals. The birds have found them as well but I find, if the one they have started on I leave, they normally leave the others alone – sometimes! I have also started to pick when they start to colour.

Tomatoes in 20 litre wicking buckets

I'm pleased with the growth achieved and have learned a few things about this method, like they are similar to a pet dog or bird in that they need a drink every day, especially when hot and regular feeding. Possibly, if I can increase the size of the water reservoir I could maybe go a couple of days in between watering – maybe? When the temperature is low every second day will do.

I feed these plants weekly, with something different each time I feed over a 5 week regime. I don't liquid feed over the leaves or pour into the water reservoir but just over the roots.

Any leaf that changes colour or I don't like the look of, for any reason, I lop off. I find I can remove up to a third of all leaves. So far – so good.

Fruit Trees.

Our Granny Smith apple has decided on one branch to put on a blossom display.

Jobs for the month at our place

Maintain fungal and Bud worm control and lop fruit tree growth over head high.

Bird Life

We received a visit from a Brown Goshawk – well that's what my Australian Book on birds indicate However, this bird's underneath colouring was grey which apparently is an appearance aspect of this bird. This hunter was deadly on vermin in our paddocks but he was also eye balling my 4 egg laying ladies. Looking for trouble he was!

VEGETABLES

Plant broad beans, they like to grow in cool weather. Before planting give the soil a good liming and also add some complete fertilizer. They don't like a high nitrogen fertilizer as this promotes leaves at the expense of flowers. They should be ready to pick early spring.

Plants of peas both climbing and bush, cabbage, and onions, can go in now.

FLOWERS

Seedlings available now; Alyssum, Canterbury bells, carnation, cornflower, delphinium, dianthus, hollyhock, russel lupins, pansy, viola, primula, snapdragon, stock and wallflower.

Sweet peas can be sown now. Prepare the soil, same as for the vegetables, they prefer a soil containing compost, lime and complete fertilizer, and a well drained soil.

This is the time to pick your deciduous flowering, shrubs and trees. With our cool winters they colour up beautiful in Autumn.

If you have put broccoli, or Chinese vegetables in when the weather is too hot the plans will bolts to flower giving you small heads. Plant in the cooler temperatures. In fact broccoli can handle frost with ease, tolerating temperatures as low as -5C. This means that an optimal harvest, broccoli should be planted after the extreme heat of summer, plant in autumn or early winter. It should then be allowed to mature over winter and harvested in late winter and spring.

Once your broccoli head has reached a good size harvest with a sharp knife, cutting the stems on a diagonal to help shed water and prevent rot. Harvest time is general 4-6months after sowing seed, but quicker in warm climate. Pick them before the head develop yellow flower buds. You can get more heads smaller growing after the main heads have been picked.

Pest and diseases;-Aphids can appear on the plants, check plants squash them if you can or hose them off. Also the white cabbage moth will lay egg on the leaves which grow into many green caterpillars. Cover the plants with netting to stop the white cabbage moth. Cover all your cabbages plants varieties with netting. You can sprinkle lime over the leaves of your broccoli and cabbages plants this help to deter the cabbage moth laying the eggs.

I have had a good season with Nashi Pears, tomatoes, yellow squash(only had one plant). Lost seeds of the corn to mice, bought seedling they are growing taller every time we look, but I hope not too late to get cobs on now.

March showed that packing and unpacking the Shed for the Tarago Show can be a stream-lined process as long as you have a plan – and enough people to make it work. We managed this thanks to our members and our friends Kris, Terry, Robert, Dom, Greg, Rob and Simon who helped us with the heavier items.

Now we have everything back in again and, as we hoped, in a much more functional arrangement.

Our usual monthly workshop was pyrography, expertly demonstrated by Jenni. Pyrography, or pyrogravure, is a fancy way of saying drawing patterns onto a surface using a heated tool. Archaeologists have found evidence of this art form in ancient Egypt, China, Rome and Peru. The history of pyrography shows that people originally used heated metal rods and charred pieces of still-burning wood to create designs onto wood or clay.

Our members used a special pyrography pen which is similar to a soldering iron but with multiple heads to make different lines and shapes.

The resulting patterns are beautiful and can turn an ordinary wooden board or spoon into a decorative object. It works on leather too. The work produced was excellent, especially for a first attempt.

Thanks to another generous grant from the Veolia Mulwaree Trust, and the hard work of our electrician Toby White, we now have excellent lighting in the Shed. It made the fine detail work much easier. When we turn on the halogen globes it's like being outside on a sunny day. Everyone commented on the improvement and it will definitely make our tasks easier. The new higher amperage power circuits are also fabulous for our larger pieces of equipment.

UPCOMING EVENTS

7 April – Mosaics.

5 May – Barbed Wire Basics. Make decorative shapes by 'weaving' old barbed wire.

2 June – Create a wooden tool caddy.

If you have any suggestions for workshops or you have any appropriate skills that you could share with the group please comment on our Facebook page or email

taragoarea.womensshed@gmail.com

Agricultural & Environmental STUDY TOPICS

Fauna: Microbats (Microchiropteran Bats)

Fungi (instead of a flora for this year)

Foe: Red Imported Fire Ants (Fire Ants)

Primary Product: Sea Weed

Country of Study: **FRANCE**

The CWA's Tarago Branch held their March meeting on the 13th.

Agriculture & Environment - Fungi (part 2)

The importance of fungi in human life

Fungi are everywhere in very large numbers—in the soil and the air, in lakes, rivers, and seas, on and within plants and animals, in food and clothing and in the human body. Together with other saprophytic organisms, fungi are responsible for breaking down organic matter and releasing carbon, oxygen, nitrogen and phosphorus into the soil and the atmosphere.

Mushrooms, morels, and truffles are also commonly eaten and mycoproteins (fungal proteins), derived from the mycelia of certain species of fungi, are used to make foods that are high in protein.

Fungi are also essential to many household and industrial processes. *Saccharomyces cerevisiae*, a type of budding yeast, is able to ferment sugars into carbon dioxide and alcohol and is used in the baking and brewing industries. Other fungi are essential in the production of food products such as soft and hard cheeses.

Medically, many fungi such as *Ganoderma lucidum*, *Agaricus subrufescens* and *Cordyceps sinensis* are used as therapeutics in traditional herbal medicine. The shiitake mushroom is the source of a clinical drug called lentinan, approved for use in cancer treatments in Japan to inhibit tumour growth.

Probably the most famous medical use of mushrooms is in the production of penicillin. In 1928, Scottish bacteriologist Alexander Fleming noticed the green mould *Penicillium notatum*

growing in a culture dish of *Staphylococcus* bacteria. Around the spot of mould was a clear ring in which no bacteria grew. His results were published but it wasn't until 1939 that a team of scientists led by Australian Howard Florey developed a method for cultivating, purifying and storing penicillin from the mould, together with an assay for measuring its purity. During the Second World War penicillin was credited with saving many thousands of

lives. Penicillin was the first of a series of antibiotics—many of them derived from fungi—that have since revolutionised medical practice.

Bus Trips - March, we went to Bowral, Harris Farmer's Market and Dirty Janes being two businesses we visited. Lunch was at the Scottish Arms Hotel. April's trip is still in planning mode.

Cultural - Focus is going to be on Tarago's history. Anyone with knowledge of Tarago's past are encouraged to contact Ruth Corrigan to record their details. There will be A Century of Quilts

exhibition at the National Gallery of Australia from March to 25 August, also Gauguin's World 29 June to 7 October.

International - The French are very proud of their Flag, also known as the tri-colour. The Flag has appeared in paintings from famous painters - The Rue Montorgueil, Paris, Celebration of June 30, 1878 by Claude Monet, July 14th in Le Havre by Albert Marquet and Liberty Leading the People, 28 July by Eugene Delacroix are just a couple.

Tarago Show - Leanne thanked all who cooked, served and cleaned in the blue van, 'The Tuckerbox' at our annual Show. There was lots of food and it all sold. Most popular were the scones, jam and cream and also salad sandwiches. This is a major fund raiser for the Tarago CWA and our members helping with their time and energy, together with the food makes for a great team effort. It was a great Show and

planning is underway by the Tarago CWA already to improve a few things for next year. Kim D. our newest member, who worked all day in The Tuckerbox was presented with her own apron. Photo of Leanne Lourigan, President presenting Kim with her CWA apron. Photo by Jenni C.

Wreath Making - we will be making the Wreaths for ANZAC Day from 10am on Wednesday 24 April . Come along to the CWA Rooms to learn how we make them. We have plenty to make - many hands make light work

A 'Call Before You Clear' campaign that aims to raise awareness among the community about the importance of seeking appropriate approvals prior to clearing trees, grasses and other vegetation on rural and non-rural properties has been launched. The campaign is an initiative of Goulburn Mulwaree Council (GMC) in collaboration with NSW Local Land Services (LLS) and the Biodiversity Conservation and Science Division of the NSW Department of Climate Change, Energy, the Environment & Water (DCCEEW).

As part of the campaign, a quick reference guide has been produced, providing clear guidelines on when approval is required and who to contact for further information. Although some exemptions may apply, approvals are typically required to clear vegetation. This resource will be promoted through each of the collaborating agencies, ensuring widespread dissemination of vital information.

All property owners within the GMC Local Government Area, along with a large number of stakeholders will receive a copy of the 'CALL BEFORE YOU CLEAR' guide, and the document will also be available on Council's website.

The partnership between GMC, LLS and DCCEEW is planning to build upon the campaign with a Biodiversity Edition of the guide in the near future, which will contain information about 'Clearing and Other Impacts to Threatened Biodiversity' in the GMC Local Government Area.

Goulburn Mulwaree Council remains committed to preserving and protecting the region's natural environment. By working in partnership with Local Land Services and the Biodiversity Conservation and Science Division of DCCEEW, Council aims to foster responsible land management practices and safeguard the biodiversity of the area.

Grey Driving Skill Enhancement Run

Council's Road Safety & Traffic Officer is running a Grey Driving Skill Enhancement Run on Sunday 28 April at 10am. I invite you all to attend. The run is designed to help seniors sharpen their driving skills. Attendees will follow a route around Goulburn that includes a wide range of driving conditions and tasks ending at the Council Chambers for further tips on safe driving and a free lunch. You will need to bring your own vehicle and a navigator on the day and registrations are essential by calling 4823 4510.

Bulky Household Recyclables

On the first weekend in May each year, Goulburn Mulwaree residents can dispose of up to 2 mattresses/sprung bases (any size), 2 fridges/freezers, 1 air-conditioner, up to 1m³ of e-waste (computers, televisions, printers, fax machines and computer accessories only), and/or up to 2m³ of clean metal (including electrical appliances with an electrical lead) per property, free of charge at Council's waste centres.

This is for Goulburn Mulwaree residents only. All loads must be transported to one of Council's waste centres. Only domestic items will be accepted - no commercial waste. All waste/items outside of those listed above will be charged the appropriate fee for disposal.

The next May disposal weekend will be held on Saturday 4 and Sunday 5 May 2024, 7am to 4pm at Council's waste centres at Goulburn, Marulan and Tarago.

For further information, contact the Waste Info Line on (02) 4823 4417.

Kind regards,

Mayor Peter Walker

(Continued on page 23)

Our March meeting was held on a very pleasant day at the home of Lois and Kym Wake.

They have planted a large variety of thriving succulents and have relied on using raised beds for both their vegetable and flower gardens with very impressive results.

We commenced the day with morning tea where we enjoyed what must be one of Windellama's most spectacular views. From our meeting it was agreed that all the rain was producing some good results in the garden, however the downside was the growth of a variety of weeds, some never seen before. Kym remarked on all the insect life with Spitfire grubs taking their toll on his natives. Robin said placing a bird bath amongst her vegetable garden encouraged bird life which in turn helps control destructive insects.

Carolyn has lost all her zucchini's to mould but is having a bumper crop of strawberries. John is eating most of these.

Robyn encouraged gardeners to consider entering their garden produce for judging at the next Tarago show and not to think that the competition would be superior. Both Doug and Irene picked up Blue Ribbons at the recent show for their woodwork and jam entries respectively.

Cherrie announced that she is now providing aged care support (Cher's Home Care) and by the sea of grey surrounding her I think her future is assured.

Accompanied by the resident Cocker Spaniels we then had a tour of the garden and learned that as everything growing were natives and well mulched at that, no watering was necessary.

We then returned to the cottage's rear decking to take care of any remaining food. The next meeting will be at Doug's (don't miss that one!)
