Celebrate Goulburn's Rich Heritage & Beauty in Autumn

Royal Letters Patent issued by Queen Victoria on 14 March 1863 established the Diocese of Goulburn giving Goulburn city status and making it Australia's first inland city. Goulburn's Celebration of Heritage and Roses is an annual festival celebrating this heritage and the City of Goulburn Rose with special events, tours, exhibitions and performances from the 7th to 15th March 2009.

There is plenty to see and do for the history lover. This year there will be fascinating guided tours of Goulburn's wealth of historic precincts including Garroorigang Heritage Home & Gardens, Goulburn Historic Waterworks, Historic Lansdowne Park and many more. Sts Peter & Paul's Old Cathedral will be conducting restoration tours that will highlight the ongoing works and the unique aspects of the Old Cathedral. This year the 19th century psychiatric asylum Kenmore Hospital Museum will feature an exhibition on "Kenmore Significant Heritage" which looks at the magnificent architectural detail of Walter Liberty Vernon. A re-enactment of a convict era public flogging to be held in The Old Courthouse is sure to be a festival highlight.

Art lovers will enjoy the Goulburn Art Society exhibition and be inspired by the Wollondilly Gardens Camera Group exhibition of stunning photographs and a showcase of Australia's best contemporary documentary photographers.

One of the highlights of the festival is the Goulburn 'City of Roses' 16th annual Rose Show on the weekend of the 7th and 8th March featuring displays of almost 7,000 roses and special guest Marlena Jeffrey, wife of the former Governor General. During the show be sure to take advantage of guided tours through Goulburn's spectacular public rose gardens, including Victoria Park. Come on any day to take advantage of the many self-guided tours including: heritage walks and bike rides, Miles Franklins' Goulburn and the rail heritage tour.

For something a little different, come to Belmore Park on 14th March for Goulburn's Multicultural Celebrations which will include a

Chinese Lion with fireworks, high energy African dancers, drums and exotic belly dancers.

The festival's many activities will transport you back to the early 1900s and bring history to life. Autumn is the perfect time to enjoy the city in full bloom.

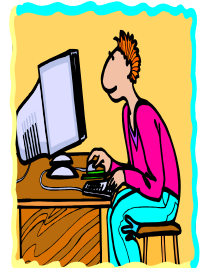

For a copy of the free Festival program phone 1800 353 646 or visit www.igoulburn.com for more information.

Vandalism at Nerriga

Just after New Year some thieves stole/vandalised letterboxes and signs from Burdon Drive and Oallen Road, Nerriga.

Residents have contacted Windellama News to bring this to everyone's attention to be aware of hoons stopping at gateways & letterboxes.

This causes great inconvenience regarding their mail.

If anyone notices discarded letterboxes in their travels, please contact your Windellama News and we can pass any information onto the residents.

Rush Job Calendar

MIR	FRI	FRI	FRI	THU	WED	TUE
8	7	6	5	4	3	2
16	14	13	12	11	10	9
23	22	21	20	19	18	17
32	29	28	27	26	25	24
39	38	37	36	35	34	33

This is a special calendar which has been developed for handling rush jobs. All rush jobs are wanted yesterday. With this calendar a client can order their work on the 7th and have it delivered on the 3rd.

1. Everyone wants their job by Friday, so there are 3 Fridays in every week.
2. There are 8 new days at the end of the month for those end-of-the-month jobs.
3. There is no 1st of the month – so there can't be late delivery of end-of-the-month jobs on the 1st.
4. A 'Blue Monday' or 'Monday morning hangover' can't happen, as all Mondays have been eliminated.
5. There are no bothersome non-productive Saturdays and Sundays – no compensatory leave or overtime to worry about.
6. With no 15th, 30th or 31st, no 'time off' is necessary for chasing salary cheques or paying bills – in fact, there's no salary cheque either.
7. 'MIRDAY' – A special day each week for performing miracles.

MINING in the WINDELLAMA area

Mining operations in Windellama were mainly carried out in the eastern side of the area along the Shoalhaven River. The areas of interest to us are from where the Jacqua or Yarralaw creek enters the Shoalhaven in the north to Oallen Ford in the south.

Mining in this area was mainly for gold but other metals such as silver, copper and lead were also mined. Later marble and silica were also extracted.

The mining area to the north has been referred to as Spring Creek, Jacqua in the earlier days and later as the Blanketburn gold fields. There was also extensive mining at Cullulla for copper and other minerals. The area to the south was referred to as the Oallen mining area.

It should be noted that there was a Spring Creek at Bungonia, Jacqua and Oallen, all of which were gold mining sites.

Boro silver mines

These mines, possibly a bit out of our area were situated east of the Braidwood road between Tarago and the Kings Highway intersection. They started in the late 1880s and were at one time thought to be as big as Broken Hill. This didn't happen and operations were all but finished by 1912.

Cullulla and Curra Creek mines

The area of mining was located on the Nadgigomar Creek in the Cullulla Creek area which was earlier known as Curra Creek. Silver, lead and copper were mined there, copper being the main interest. The mines operated from the 1890s until about 1906 when 60 to 80 tons of copper ore were obtained. The mines reopened for a time in 1912 but not for long.

Spring Creek, Jacqua or Blanketburn mines

Mining in this area started about 1869 for some years with another period of activity in the 1890s and some interest in the 1930s. Mines in this area were at Manton's Reef, Dollypot Ridge, Blanketburn, Spring Creek, Spa Creek,

Wattle Flat, Sewell's Point, Black Springs, Broken Creek and other locations along the creeks in the area.

Nadgigomar Dam

This dam, still in evidence today was built about 1890 by the Spa Proprietary Hydraulic Sluicing and Gold Mining Company at a cost of £8000. A water race some 26 km long was also constructed to take the water to the Black Springs and Spa mines. The race had several flumes to take the water across creeks and low level areas of land. A flume was a galvanised iron trough supported by wooden trestles. The longest of these flumes was about 700 meters long. Five tunnels were also constructed, the longest being 213 meters long. This is possibly the one near Russell's Corner at Old Dundarra. On Friday 18 June 1896 a great storm filled the dam to overflowing and part of the by wash was washed away.

Oallen mining area

Mining in the Oallen area was carried out at Yellow Springs, Fernbank, Spring Creek at Oallen and other places in the area. There was also mining at the Mountenay, Phoenix, Timberlight and Welcome Reef sites. Some of this activity was on the Nerriga side of the Shoalhaven River.
