

Roses and fruit trees can be planted & also deciduous flowering trees.

Roses can be pruned now; spray the roses with lime sulphate to help control black spot.

Fruit trees can be pruned now.

### Vegetables:

Broad beans, peas & onion seeds can be sown now. Rhubarb & asparagus crowns can also be planted. Plant strawberries now.

### Flowers:

Seedlings - stock, viola, primula, wallflower, Russell lupins, delphiniums, foxglove, poppies, sweet William, calendula, alyssum, snapdragons, verbena, dianthus.

Sow the seed for Virginian stock directly where they are to grow.

## PLANT OF THE MONTH Broad Beans

Broad beans are a cool season vegetable and provide useful meals in spring and early summer when other vegetables are scarce. It is a useful legume for soil improvement too.

Broad beans are best suited to mild temperate & cool climates, and are sown from early autumn to late winter in our area.

Broad beans are a tall leafy crop and needs plenty of space to grow.

- Sow seeds in rows 60-75cm apart. Place a fine row of fertiliser alongside the rows when planting.
- Press the large seeds into dark damp soil at the bottom of the furrow about 5cm deep, spacing them 15-20cm apart.
- Cover with soil, tamp down and rake the surface.
- If sown in damp soil, extra water is not needed until seedlings emerge in 10-14 days.

Extra fertiliser is usually unnecessary while the crop is growing. Too much fertiliser promotes leaf growth at the expense of the flowers.

As they grow they will need some support; you can place stakes at either end and run twine across to them.

Flower drop is a common problem in early spring due to low temperatures. Pod setting improves with warmer weather and greater activity of bees.

You can pick pods when young and slice them like French beans, or leave them to fill and then shell the half-ripe seeds.

A 5-6 metre row is usually sufficient for one sowing for the average family.

Varieties:

Early Long Pod grows to 2 metres tall with pods 20-25cm long.

Coles Dwarf gives a heavy crop of tender pods; grows to 1 metre with smaller pods. A dwarf variety is often preferred by home gardeners as the plants are more compact and less liable to wind damage.

## **New plan to ensure continued wild dog success**

Following its unprecedented success in reducing the impact of wild dogs on agriculture in the region, the Brindabella and Wee Jasper Cooperative Wild Dog Management Plan will be resigned for another five-year period on 22 June.

The new contract has brought together a broader range of land managers and stakeholders which will more equitably share the cost of wild dog and fox control in the 150,000 hectare plan area. Joining the Tablelands Livestock Health and Pest Authority, Forests NSW, the Department of Environment, Climate Change and Water's Parks and Wildlife Group, the Land and Property Management Authority and local landholders are new partners including ACT Parks, Conservation and Lands, Willmott Forests and Hume Forests.

Tablelands LHPA ranger in Yass, Chris Harris says that as well as including new partners, the 2010-15 contract allows funding for a full-time trapper to carry out a proactive, systematic control program, as well as reactive wild dog trapping in response to any reported activity.

"Landholders will benefit from the permanent employment of experienced trapper Bill Morris who has worked in this area in excess of 30 years," Mr Harris said.

"A contingency fund has also been included in the new plan – these funds will enable the Tablelands LHPA to attain the services of a contract trapper in periods of high stock losses or numerous wild dog attacks to assist the permanent trapper."

The innovative plan works across all land tenures and attempts to stop wild dogs from entering grazing lands by creating a buffer zone within adjoining bushland areas. In recent years the plan has achieved a dramatic reduction in stock losses and wild dog activity due to the vigilance of all parties involved, particularly local landholders.

The Brindabella and Wee Jasper cooperative wild dog/fox plan was first trialled in 2001-02 after a period of years of high stock losses in the Wee Jasper and Brindabella areas. It was the first integrated wild dog management plan using the nil-tenure approach.

The success of the trial program in reducing stock losses resulted in the formation of the plan (2002-2005) and a contract was signed between the former Yass Rural Lands Protection Board, Forests NSW and the National Parks and Wildlife Service.

Under the initial plan, attacks on stock decreased by an average of 75% per year. In 2005 the original contract was renegotiated to continue until 2010.

The Brindabella Wee Jasper plan has been adopted across NSW as a model plan for wild dog and fox control.

---

## **Minute Mayonaise**

- ½ teaspoon Keens mustard powder
- ¼ teaspoon salt
- 1 tablespoon white vinegar
- 3 level teaspoon sugar
- 1-2 tablespoon cream

Mix all ingredients together & let sit for a few minutes to allow flavours to blend before consuming.

It will become 'hotter' (more mustardy) the longer it sits & can be 'cooled' by adding additional cream.

**Mix only what you need as it does not keep well.**

## BRIEFS FROM COUNCIL MEETING 15 JUNE 2010

### Management Plan adopted

Goulburn Mulwaree Council has adopted its 2010/11 Management Plan.

Council received 41 submissions about the document during the exhibition period, and these suggestions were considered at last week's General Purposes Committee Meeting.

Some of the changes to the Management Plan include:

- **Council will now apply a 30% Base Rate percentage to the Residential and Farmland rating categories.**
- That the amount included in the Executive Management budget for staff events remain at \$10,000.
- Council will support the Goulburn District Tourism Association at the Country and Regional Living Expo in 2011 to the tune of \$5000.
- Council to investigate funding for the extension of the Addison St bus zone for Trinity Catholic College.
- A donation of 20 discount tickets per year at the Goulburn Aquatic Centre on request to charitable and community organisations for free, with another donation of 20 discount tickets per year for Council approved fund raising purposes.
- **Council has also recommended that deferring any construction on the Oallen Ford Road Bridge until more is known about what is happening with Main Road 92 from Nerriga.**

### Additional Green Waste collection

Following a number of requests from green thumb gardeners across Goulburn Mulwaree, Council will conduct an additional green waste collection in the week from Monday 28 June to Friday 2 July 2010.

Simply leave your organic waste bin (green lid) at the kerb on the same day as your domestic waste collection.

### Wholesale Nursery approved

Council has unanimously approved the construction of a wholesale nursery, which will provide employment opportunities for people with disabilities in the Goulburn Mulwaree area.

The development includes the erection of a training and amenities building, as well as maintenance, potting, facilities and storage buildings, construction of seven-bay potting storage area and placement of four igloos and two railway containers linked by an awning and adjacent portable toilet.

Council also resolved to grant Challenge Southern Highlands Inc. the sum of \$3,716 for re-imbusement of the assessment and construction monitoring fee for this project from the Community Grants and Donations Scheme.

### Councillor Salary

Councillors have voted to not increase their annual salary. Following a recent determination by the Local Government Remuneration Tribunal, Councillors were entitled to a 3% increase in their fees. However, Councillors decided to maintain the status quo, with the annual Councillor and Mayoral fee to remain at \$15,500 and \$33,840 respectively.

### Audit and Review Committee

Council will soon be calling for Expressions of Interest from two community representatives for the newly created Audit and Review Committee.

The Committee will comprise Councillors Neil Penning and Bob Kirk, along with three independent external members, including the Director of Finance and Administration from Upper Lachlan Shire Council.

A charter will be developed for the Committee and presented to the July 2010 Council Meeting.

## Main Road 92 Upgrade Nowra to Nerriga

Stage one, the 24 kilometres from Hames Road, Nowra to Morton National Park was completed in June 2007 and stage two, the nine kilometres from Bulee to Nerriga, was officially opened to traffic in September 2009.

In July 2009, site work commenced on stage three, the final stage of the 54 kilometre MR92 Upgrade. This \$25 million contract, awarded to NACE Civil Engineering Pty Ltd, is expected to be completed in late 2010.

The third stage of the project will deliver 20 kilometres of upgraded road from Tianjara Falls to Billy's Hill near Bulee Gap and will link the first two stages of the upgrade. The majority of this stage of the construction will be adjacent to Morton National Park and through Sassafras. There will also be major improvements to the steep incline east of Sassafras.

In March 2010, sealing works commenced on the completed pavement. This was an important milestone reached for the 20 kilometre stage three project. A total of 8.5 kilometres of work was sealed by the end of May 2010, including four kilometres west of Sassafras and four and a half kilometres east of Sassafras. Due to significant rainfall, further sealing work that was programmed for late May 2010 will now commence in mid to late June 2010.

Significant progress has been made on the steep incline east of Sassafras. This includes the completion of the reinforced soil wall on Sassafras Hill, and start of construction of the concrete safety barrier. Earthworks are also continuing at this site.

Pavement works are continuing on the unsealed sections of the road, with sub-base and base being laid through Sassafras, as well as east and west of Sassafras. Only 0.8 km of the original pavement remains.

Weather conditions during May were generally fine with only a few occasions of rain recorded at Sassafras, which has helped progress the work. However over 100 mm of rain fell on Wednesday 26 and a further 75 mm over the

last weekend in May. If rain continues into early June, this may cause further delays to the progress of the work.

For all enquiries concerning operational matters relating to construction activities, please call the NACE Civil Engineering Pty Ltd site engineer, Neil Kuberan on 0422 370 024, or the project supervisor, Bob Meins on 0412 464 866.

Motorists are advised to drive carefully throughout the construction area with variable road conditions on sections of gravel road. Particular care should be taken in wet weather as the unsealed sections of the road can be slippery and suitable only for 4WD vehicles.

While work is underway, motorists may be escorted through construction works to ensure the safety of travellers and workers when heavy plant and machinery are in use on the road.

This may involve a short delay and restricted speed through the worksite. Motorists are advised to allow additional time when planning their journey.

Motorists are advised to be road work aware, slow down and take care as road work speed limits are enforceable.

For current road conditions visit [www.rta.nsw.gov.au/trafficreports](http://www.rta.nsw.gov.au/trafficreports).

## Website Stats

We are still consistently being visited by 1500 unique (new) visitors each month along with our many regular visitors.

The web version is in colour and is always to hand at the push of a button.

The Windellama website has hits on average of between 5,000 to 8,000 per month. The traffic is brisk with no pollution to our area.

The Brigade site also is being mega-visited, especially for the local weather stats.

GOD'S REMNANT ASSEMBLY AUSTRALIA (GRA Australia)

Would you like to know more about Jesus?

Do you want to know the LIFE He has for you -

your destiny, your gifts, your purpose?

We are a husband and wife team with GRA, a trans-denominational missionary movement. GRA works around the world, including Iraq, Iran, Afghanistan, Nigeria, Sudan and is new to Australia. We believe Australia needs the Word, fresh and new, as it is being shared around the world and setting lives alight with the beauty and Truth of Jesus.

We have started a home Church in our community and introduce ourselves – Bunja and Judith Smith. If these words have stirred or touched you please contact us to hear more about this Ministry that is new to Australia:

by phone - 0401 912 193 or by post -

**Pastors Bunja and Judith Smith**

Gods Remnant Assembly Australia  
GPO Box 1695, Canberra City ACT 2601

Be part of this exciting work in our community:

**Sunday morning** - we sing and study His profound truths

**Tuesday evening** – we plan the ministry, outreach and study His Word

**Thursday evening** – we praise and enjoy a power prayer hour.

Jesus' love never fails. John 15 : 12
