## Our Policy on Receipts

The Windellama News makes out a receipt for all advertising payments made to the paper. We don't post out receipts to save cost and we assume that the appearance of the advertisement in the paper could normally be taken as proof of payment. If you require a posted receipt please include a stamped self-addressed envelope with your payment.

It would be greatly appreciated if anyone sending money to the Windellama News would include their name and address and a note saying what it was for and put it in a sealed envelope. This would avoid a lot of confusion and uncertainty .

## Vale

Andrew Ivon McMillan "Andy". Passed peacefully 11th June after a courageous battle. Sadly missed by all his true friends in the Windellama community.

"We are but three people:

Those which we think we are,

Those which others think we are, and

Those which we really are."

RIP Andy.

## Local Little Athletics Group

An expression of interest.

Are there any Parents/caregivers/ community members who would be interested in forming a Little Athletics club for our area?

The formation of a local Little Athletics Group relies heavily on Parents volunteering. The new season commences in October 2017, but maybe if it doesn't get off the ground we can look into the 2018 season if there is enough interest.

If you are interested in starting a Little Athletics group in our local community let Marina Wenban know at [ronwenban@skymesh.com.au](mailto:ronwenban@skymesh.com.au)

For more information about Little Athletics,

## Farewell

We are saying goodbye to Grahame and Christine Woodcock who are leaving Quailago to start their next adventure in Tasmania.

Christine was not only the Secretary/Treasurer for the Windellama News, but also the Secretary of the Progress Association.

Grahame was on the Progress Association committee, part of the monthly market team, and was one half of the dynamic duo who made our annual Small Farms Field Day such a success.

We wish them all the best for their new adventure and we will greatly miss them and their contribution to the community

**The Annual General Meeting of the Windellama Progress Association will be on Sunday 9th July 2017 at the Windellama Hall at 11.00 am. Come along and have your say. All welcome.**

# About Little Athletics

Little Athletics is the primary provider of modified track & field events for children between 6-17. We are a volunteer based, community orientated organisation committed to developing children of all abilities by promoting positive attitudes and a healthy lifestyle through family and community involvement in athletics activities. The Association's philosophy is best captured by our motto's: "**Family Fun & Fitness**" and "**Be Your Best**".

**Family** The cornerstone of Little Athletics is extensive family involvement, both in the conduct of weekly activities and in the various administrative tasks connected with the running of all levels of the organisation.

Parents are engaged in the various activities at the local centre level through to state and national levels.

This active parent support of their children reinforces family relationships.

**Fun** With its focus on parent participation and personal improvement, Little Athletics encourages children to enjoy sporting activity. The opportunity for developing important physical coordination and social interaction skills occurs in a supportive and friendly environment.

**Fitness** The emphasis on developing a healthy attitude to physical fitness at an early age is the key to developing good habits in life.

A wide range of age-appropriate running, jumping, throwing and walking events are conducted at Little

Athletics Centres. Children compete with others of similar age, with an emphasis placed on participation and personal improvement, rather than winning.

Little Athletics contributes to the development of foundation skills in running, jumping and throwing that will stand children in good stead throughout their life and at the same time emphasises family values and enjoyment through personal improvement and participation.

Our sport provides skill enhancement at the heart of all other sports and has provided many of our athletes with development to assist them with reaching the pinnacle in their respective sports: Such people as: Sally Pearson - Gary Ablett Jnr - Kimberly Mickle - Simon Black - Steve Hooker - John Worsfold - Geoff Ogilvy - Alisa Camplin - George Gregan - Chris Judd - Dr Peter Larkins - Mike Whitney - Melinda Gainsford - Taylor - Patrick Mills - Jane Flemming and many more

# Nerriga Progress & Sporting Association

Queen's Birthday long weekend was another successful Cake Stall and Sausage Sizzle for the Nerriga Progress & Sporting Association.

A chilly start to the day, shoppers came early and we were sold out by 1pm when the sun was shining and the day was a good deal warmer. Thanks to everyone who shopped, baked, and generally helped out.

We were thrilled to have three generations of the Temple family - Betty Temple our Cake Stall stalwart, her daughter Sandra South who helped with cooking and on the Cafe, and her daughter Alison Stutchbury who had her own cake stall showing her artisan baking and decorating for her company, A Sweet Creation.

There was someone who sadly left a cake from A Sweet Creation, at the cafe; and if they would like to speak to one of the NPSA members when we have our October long weekend cake stall and sausage sizzle, we

Roses and fruit trees can be planted now. Also deciduous flowering shrubs and trees, make sure you give them some old compost dug into the soil before planting and water them in well. Roses and fruit trees would benefit from a handful of lime around the ground when planting.

Roses and fruit pruning can start this month, wait for a still day with no breeze and also spray with Lime Sulfur. I like to wait to the first week in August to do my pruning.

Vegetables to sow now are Broad beans, peas and all varieties of onions. Also plant rhubarb, strawberries and asparagus crowns

## FLOWERS

Seedlings for sowing:- Stock, viola, primula wallflower, russel lupins, delphiniums, foxglove, poppies, sweet William and calendula, alyssum, snapdragons, verbena, dianthus. Sow Virginian stock seeds directly into the soil where they are to grow.

Transplant roses and small deciduous trees and shrubs that are in the wrong place.

Take hardwood cuttings of deciduous plants such as oakleaf hydrangea, rose, fig and wisteria.

Cover frost-tender plants on cold nights but remember to remove covers in the morning.

Spray lime sulfur on deciduous plants such as apples, stone fruit, grapevines and roses to control mites, scale, powdery mildew.

Trim wisteria vines, cutting all the side-shoots back to two or three buds.

Keep an eye on bindii in lawns, and dig up or spray before they mature.

You can prune your stone fruit trees in February to give them a good tidy up and take out broken or cross over branches.

## Craft @ Windellama Hall

We meet from the second Tuesday of the month 1—4 pm.

## Windellama SES First Aid & CFR

The Windellama Unit played host to Goulburn Region members and also to Goulburn Local SES Unit this evening , 19th, for the presentation of Long Service Medals, special award Medal and Citation Medals for members of the Local Windellama Team, their names were as follows: Noel Sylvester, Margaret Burgoine, Graham Kinder and Kevin Muffet. The Citation Medals came as a result of the services rendered by the local SES/ CFR members who attended the Defence Force Bus rollover on the Sandy Point Road in November of 2015.

Two other members of the Windellama SES were awarded 5 Year Long Service Medals, they were John Zyla and Soie Policarprio.

The Goulburn Mayor, Bob Kirk was a special guest for the presentation of the medals. He in fact had the pleasure of presenting these medals.

We are just about through an Urban Search and Rescue course at the moment.

There was not a great demand on the services of our CFR unit since I last communicated with you.

It is with regret that I have to report that one of our Members, Andrew Mc Millan died just recently.

## Windellama Garden Club Incorporated News

On Saturday 10th June three of our club members attended the Windellama School Auction. This event was well organised with excellent items for auction. The school is very fortunate to have very good sponsors and it goes without saying that these sponsors need to be supported by the community. I only wish my pocket was deeper. The food on offer was once again excellent (yummy) especially the cakes.

Our club and friends on Thursday the 15th June visited the Price property at 1080 Cullulla Road Mayfield where we viewed their collection of many different items. This collection re-kindled memories of my childhood years. We also had the opportunity to purchase different items.

At our last meeting held at Sandy and Johnno's place on the 20<sup>th</sup> June we discussed our Can-Assist fund raiser via our cake auction to be held on Saturday 12<sup>th</sup> August 2017. This year for our Cake Auction we will need the community support with donations of cakes, pies, scones etc. for the cake auction and also, if anyone can lend a hand or two it will be greatly appreciated.

Gary Lourigan was also in attendance and asked how the Progress Association can assist with the running of the Country Fair.

After the meeting Sandy showed us her handiwork and garden. Her greenhouse has been modified by her and inside plenty of cuttings and plants have been potted-up.

Our next meeting will be on Tuesday 4<sup>th</sup> July at St Bartholomew's Church on Windellama Road where with Willow Glen Gardeners we will give the garden and surrounds a clean-up.

In our garden the onions and leeks are in and standing up like soldiers and the broad beans are starting to poke though. The frosts encountered have separated the ripe pumpkins from their leaves. The brassicas are a little slow in growth but I have another bed ready which I will put some more seedlings in. The Rose garden has been weeded and we can now see the Tulips and Daffodils poking their greenery up. Once again the common call at our place is "more rain please".

Finally, a Cheerio call to Roz Woods – stay strong.

Harry Simm

Secretary

Windellama Garden Club Inc.

### Over the Last Month (or so)

The Windellama Rural Fire Brigade Annual General Meeting was held on 27 May 2017 with Des Kingston (Deputy Group Captain) presiding as Acting President, since Jim Meehan had recently decided to step down as President, after a long period of service, as a Captain, President and firefighter. Paul Alessi provided a short report as he has been Acting Captain for only a few weeks (at short notice). There was one grass fire, and one fire which turned out to be an un-notified burn. Des thanked Paul for stepping into the Acting Captain's role at such short notice.

A number of long-standing Brigade Officer Bearers did not seek re-nomination, and a number of new Office Bearers were duly elected.

Des Kingston congratulated all those elected to Brigade positions (see below), and thanked all those who have stepped down, for their service. The election results were:

## Sifton Bush Elimination and Control Advice

If Sifton Bush has been established in an area for some years, the seed bank exists and there is nothing one can do but follow up clearing of an area every year, before seeds form.

On hillsides where there is little else binding the soil, Sifton Bush has a positive contribution. Leave it there until other grasses and ground cover develop.

To control Sifton bush, EITHER chip, or cut with secateurs, the smaller plants at ground level (at least so that no shoot remains below the cut). Large plants can be cut with a tree lopper or trimming saw; OR, If the ground is soft, pull out the plants (but this disturbs the soil and may enable germination of seed).

There is no 'easy' option if one wants to eliminate and not just control the pest; preference is elimination because control is even harder work as similar effort is needed every year.

If slashing, walk the area (at least before the next seeding), and remove shoots that have been missed; many shoots can be missed because a slasher cannot be set low enough. Without follow-up the plants will continue to grow and become thicker because of the seed bank.

Note: For all larger plants ( $> \frac{1}{2}$ " ) ensure the stem is cut as close to the ground as possible (less than  $\frac{1}{2}$ " ) above the ground otherwise the stem may reshoot.

NSW WeedWise says "Flowering occurs from October to May depending on location." We recommend follow-up on an area should occur before the end of December to ensure no flowering results in seed formation.

For further information about Sifton Bush, Google <http://weeds.dpi.nsw.gov.au/Weeds/Details/253> and for ALL weeds enter "NSW Weedwise" into your search engine and go to [weeds.dpi.nsw.gov.au](http://weeds.dpi.nsw.gov.au).

## EDUCATING THE HORSE

Professor Theodor Lichtwark, who has been holding classes in the surrounding districts for the purpose of teaching his system of educating the horse, is again in Goulburn, where, as will be seen by advertisement, he holds a class lesson this evening in Mr Walker's building.

During the professor's stay at Windellama a young unbroken colt was handled before the onlookers by one of his pupils, and in less than two hours this gentleman could do practically anything with his erstwhile lively subject—riding and tumbling about on its back, handling its forelegs, and strolling around the yard with his young pupil following.

This should satisfactorily prove the genuineness of the professor's system, showing as it does that any one is capable of

doing the same as himself.

## THE OLDEST COLONIST

There is now living at Goulburn (N.S.W.), Robert Chipp Thompson, who was born in 1815, and is therefore in his 96th year. He claims to be the oldest living Australian native. He has had an adventurous career, and is still active. A few weeks ago he walked from Windellama to Goulburn, 24 miles. He states that in his early days there was no flour in the country. When he was minding sheep on the Hawkesbury he used to cook a cob of corn. It was called Hawkesbury Duck. He was 17 before he wore boots. Only knee boots were then available, and they were £5 a pair. He was a horse breaker, and while following that occupation had both legs broken, his shoulder fractured, and his ribs stove in.

(Casino and Kyogle and North Coast Advertiser 29 March 1911.)

WINDELLIMA. Church Service. Owing to inability of the Rev. Mr Procter to travel, the Jacqua church has been closed for some years back. Arrangements have now been made between that Rev. gentleman and the Rev. W Anderson, whereby the latter will hold service in the said church regularly. I believe it is his intention to hold service in future at eleven a.m. at Windellima and at three p.m. at Jacqua.

A Sunday school is to be started on the 9th inst. at Rose Vale under the superintendence of Mrs Thomas Middleton, that good lady having undertaken the very necessary position of Sunday school teacher to the village. I wish her every success. I believe it is also in contemplation to open a Sunday school at Windellima, but nothing definite has been arrived at yet.

**MANPOWER, EQUIPMENT & EXPERIENCE**

Discarded rubbish is not only unsightly and spoils the beauty of our local area, it can and does injure wildlife and other animals. As wildlife carers we see firsthand the damage that can be caused, which is not only sad, but also frustrating considering it is totally preventable. How we dispose of rubbish can help prevent injuries and death to inquisitive or hungry creatures.

Fishing line and netting left laying around are a major hazard. Likewise fishing hooks, which can be swallowed by unsuspecting creatures causing them much suffering, and usually a slow and painful death. This doesn't just apply to coastal areas, it also happens on inland waterways. For example a Crested Grebe was found entangled in fishing line at Pejar Dam. Thankfully the bird was uninjured, and after being freed was able to be released immediately. Others, like a Long-necked turtle rescued from Wyangala Dam after swallowing a fishing hook, are not so fortunate.

We all use bottles with a plastic seal around the top - how we dispose of this small ring can be the difference between life and tragic death for unwitting wildlife. Before disposal, cut it open so it no longer poses a threat.

*Top: X-ray of Eastern long-necked turtle - arrow showing swallowed fishing hook.*

*Bottom: Brown Snake caught in empty drink can*

Plastic bags, the bane of modern society, are seen along almost every roadside; many end up in waterways entangling turtles and platypus, or wash out to sea causing untold damage and slow death to marine creatures.

Drink cans are deadly traps; snakes are one species that become trapped while exploring the inside of a can. If a snake slithers its head through the opening, it may be unable to get it back out, as its scales do not bend backwards, therefore keeping it pinned at the neck. This Brown Snake was fortunate that it was found, and the can successfully cut off - after a couple of days in care to recover from the trauma, it was released back into the area it was found.

Then there is the orchard netting, often seen as discarded piles about yards or sheds when no longer needed, or loosely draped over fruit trees and veggie gardens to protect plants. Many creatures get tangled up in the netting, suffering constriction,

dehydration and starvation. Never use thin nylon (monofilament) netting, use only the thicker knitted netting, making sure that the holes are small enough so that you can't poke your little finger through. Ideally the netting needs to be tightly woven with a mesh of only 2mm and stretched tight over a frame

Glass from empty bottles broken by time, can cut the feet or mouths of unsuspecting wildlife, when running or grazing. They cannot go to the doctor for stitching, bandaging and antibiotics, so many suffer infections that can be fatal, or are crippled, inhibiting their ability to survive.

*(Continued on page 27)*

Sounds depressing? It need not be, if we only spare a thought for the other creatures with which we share our environment, and clean up after ourselves, or after others less responsible.

## Adding services to Big READ Bus

Goulburn Mulwaree Council is trialling a new service with the Big READ Bus, our well-loved mobile library van.

Members of Council's Customer Service team will be getting out of the office and onto the Big READ Bus each month to offer services to our regional communities in their own towns.

Along with the normal range of Library services, customer service team members will be able to undertake payments and transactions (cheques and EFTPOS only at this time) as well as lodge service requests. This will allow our community members who may typically have difficulties getting into the Civic Centre in Goulburn to lodge requests.

Craig Johnson, Business Manager Customer Liaison, says the aim is to make life easier for rural communities. "The Big READ Bus initiative has been extremely successful, and we want to build upon this great resource to reach our customers in all corners of the Local Government Area. This trial will give community members a chance to make their payments in their own town, and they will also be able to lodge service requests for jobs and works that they may have difficulty doing otherwise."

The service rollout is part of Council's continuing drive to be 'Easy to do business with.' The trial will begin on Wednesday the 14th of June, and will run for the months of June and July, before being re-evaluated.

## Nerriga Gardeners

On yet another foggy morning we gathered at various places along the road and made our way to Lynley and Gary's bushland hideaway. Since our last visit there have been lots of earth works and there are now 2 terraces for the edible plants to go on with metal hoop frames being reconstructed along them. The browsing and climbing animals make protecting plants an absolute as the possum has made its way on to the terrace in front of the house which is on top of a sheer drop and fenced! Gary has been working hard to get in the footings for the actual house and construct steps and paths into the grounds. There were several clumps of a greenhood orchid with flowers just past their

best. It has been a great year for them with Sue having found clumps on their property too. She has identified 3 or 4 species. Lynley and Gary have an amazing collection of potted plants waiting for permanent homes and many are quite tender ones that they seem to be able to grow such as banana plants ( until the big frost at the end of May but it had survived 3 years and may come back ). Morning tea was enjoyed on arrival and then we basked in the sun on the terrace before clambering around the garden while Lynley took the less mobile down to the new

levelled sites in the car and then on to the creek where a few frogs were calling. Then back to the house for lunch and a natter.

Our next meeting will be at Di's house in Nowra on Thursday 20<sup>th</sup> July and as usual all are welcome. Please bring a plate to share and lets see if we can maintain our unplanned record of everyone bring something different and yummy.
